

Love Both Heartbeats

Being pro-life means more than being pro-baby. Being pro-life means believing all life is important. Being pro-life also means being against abortion! Abortion is when you take a baby's precious life away. No good mom, knowing what abortion really is, chooses to end her child's life. It is important we share the truth about abortion. It is also important that we love both heartbeats, so we can end abortion.

Unfortunately, some moms feel they have no one they can turn to in their time of need. Maybe the mom does not have her own place to live. Maybe the mom does not have a good job. Maybe the mom does not have family or close friends around to help with daycare. The pro-life community must love both mother and child, love both heartbeats, if they are truly pro-life. A scared mom needs help. She needs a supportive doctor, a home, food, a job, and reliable friends to help her. There are many charitable organizations that really love both heartbeats and are willing to help. If we do not know a mom that we can help, we can support one of those pro-life charities. This is a good way to love both heartbeats.

The best thing we can do is to help connect a scared mom with a pro-life friend, group, or both. Ultimately the mom needs to be loved too. If she feels loved then maybe she will not feel scared. We need to love both heartbeats!
